Those Board of Directors are also responsible for overseeing the company's financial reporting process.

FRONTLINE HOME CREATION PRIVATE LIMITED FINANCIAL YEAR: 2017-18

SIGNIFICANT ACCOUNTING POLICIES:

1.1 CORPORATE INFORMATION:

FRONTLINE HOME CREATION PRIVATE LIMITED ("the Company) was incorporated on 1st January 2010 as a Private Limited Company. The Company is engaged in the business of construction & real estate activities.

1.2 BASIS OF ACCOUNTING:

The financial statements are prepared under the historical cost convention on an accrual basis in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) and Accounting Standards (AS) as notified by the Companies (Accounting Standards) Rules, 2006 as amended, the provisions of the Companies Act. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

1.3 <u>USE OF ESTIMATES:</u>

The preparation of the financial statements in confirmity with GAAP requires the Management to make estimates and assumptions that affect the reported balances of asset and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise. During the year the management had not made any estimates, hence no impairment loss been recognized for the assets and no contingent liability has been provided.

1.4 CASH & CASH EQUIVALENTS (FOR THE PURPOSE OF CASH FLOW STATEMENT)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

1.5 DEPRECIATION AND AMORTISATION:

Depreciation on tangible Fixed Assets acquired after 1st April 2014 are provided on Straight Line Method (SLM) based on the useful life of the assets and in accordance with Schedule II to the Companies Act, 2013. Assets acquired prior to 1st April 2014, the carrying amount as on 1st April 2014, are depreciated over the remaining useful life of the assets. The differential depreciation has been adjusted against the retained earnings at the begining of the financial year during the audit.

1.6 REVENUE RECOGNITION:

i) Income from construction activities:

Revenues from construction activities are accounted based on the Percentage of Completion method derived from the cost up to date as compared to the total estimated cost and total contracted sale value only where it is feasible to estimate the stage of completion and the revenue related to that part. In other cases revenue is recognized on construction completion method, which is in accordance with the accounting policy hither to adopted.

ii) Other Income:

Other income includes Interest on deposits.

1.7 TANGIBLE FIXED ASSETS:

Tangible fixed assets are carried at cost less accumulated depreciation and impairment losses if any. Fixed Assets are stated in the books at historical cost inclusive of all incidentals expenses incurred for acquisition of such assets.

1.8 INTANGIBLE FIXED ASSETS:

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

1.9 EMPLOYEE BENEFITS:

Employee benefits include Salary & Wages, Director's Remuneration excluding provident fund and other welfare expenses excluding superannuation fund, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

1.10 BORROWING COST:

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan.

1.11 EARNINGS PER SHARE (EPS):

Basic EPS

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted EPS

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

1.12 TAXES ON INCOME:

Current tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum alternate tax (MAT)

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax:

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets.

1.13 IMPAIRMENT OF ASSETS:

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised,

1.14 PROVISIONS AND CONTIGENCIES:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

1.15 PREVIOUS YEAR FIGURES:

Previous year figures have been reclassified/ regrouped to conform to this year's classification. The adoption of Revised Schedule VI for previous year figures does not impact recognition and measurement principles followed for preparation of financial statements.
